

Information for Civil Service Pension Scheme Members

Increase in employee pension contributions from 1 April 2014

The Cabinet Office has written to all Civil Service pension scheme members telling them that their pension contributions will increase from 1 April 2014. This mailing was completed on 21 March 2014. **[Note: employers who chose to distribute the letters themselves will need to insert when they sent the letters out]** So you should have received your own copy of the letter by now but a copy of it is attached in any case. You should print off the letter or retain it electronically for your records.

If you do not receive the letter, it may be because we do not hold your current address. **[Note: Employers should tell employees how they can update their records and remind them to change their address whenever they move.]**
