

2015 Remedy: Phase 2 data collection update

Schedule for completion

The table below shows the schedule for issuing data collection sheets. This is detailed by Tranche number and Target start date. Please refer to your employer name and Tranche Number to understand when you are likely to receive your datasheets. You will need to complete and return your datasheets within 6, 10 or 12 weeks. If you are able to complete it earlier, please do so.

Phase 2 numbers may exclude some members who have previous public service history we're not aware of. This mainly impacts New Fair Deal employers. This will be addressed later in the programme.

Impacted member totals

In January 2022, we communicated impacted member totals for both Phase 1 and Phase 2. These numbers have now been updated to capture all additional data we now hold and employer totals exclude any WPS contribution data we have been able to derive.

The revised totals below show anyone in scope for Phase 2, any residual members not collected in Phase 1 and any new members from Jan 2022 to July 2022 who have now fallen into scope.

If your employer name was on the original list, but is not on this list, it means we have been able to extract the required data and nothing is required from you in Phase 2.
